i have listened to a radio station, kroq in los angeles for more than 20 years. i can't listen to it anymore because, apparently, some company has bought it that programs the music, or is somehow paid to play the music that they play. this is sickening. companies like clearchannel have been the death of radio. this trend toward deregulation is destroyoing radio. please stop this. we need localism and freedom in the media, not more control by market driven corporate entities. please do what you can to stop deregulation of media ownership, and bring back more local control of content.
